THOMPSON'S HYBRID

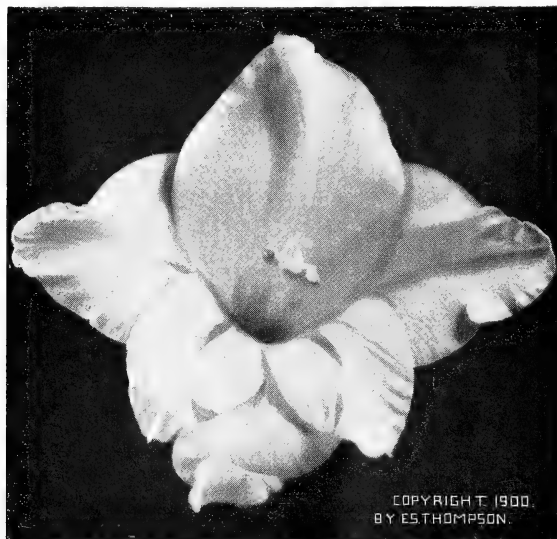

THOMPSON'S HYBRID GLADIOLUS

They stand up about as high as they sit down wide, strong vitality, and extra good for flowering.

GLADIOLUS—
NO. 97

Seedling of May, pure white, diffused pink carmine on outer edge of petals. Carmine throat.

PARK BELLE GLADIOLUS

Awarded Honorable Mention at
Pan American Exposition, Buffalo,
and stated by the judges to be the
purest illuminated pink grown.

DAHLIA—AMERICA

A counterpart for colors of
Gladiolus America, and a
beauty.

AMERICA

COPYRIGHT 1909
W. E. S. THOMPSON

DAHLIA—NO. 111

Enormous $4\frac{1}{2}$ inch flower. Fine line of Lavender on each petal and lavender tipped. Perfect flower, rich even yellow, almost a ball.

DAHLIA—CHICAGO—NO. 149

Photo from flower $7\frac{1}{4}$ inches in diameter. Perfect center, colored with crimson, orange and amber shadings, well worthy its name.

DAHLIA—ALEXIS JR.

NO. 251

An exact counterpart of Grand Duke Alexis; as to color. White, lavender center, free flowering, $3\frac{1}{2}$ inches. Clean stems 18 to 24 inches.

DAHLIA—NO. 307

A full double center,
perfect and with good
stem. Rich dark lemon
yellow.

DAHLIA—NO. 121

Dahlia white, lavender tipped and shaded. A decorative that is valuable, good stem.

DAHLIA—NO. 153

One of the finest decoratives ever offered the trade. White with faint pink blush on outer row of petals.

COPYRIGHT 1909
By E.S. THOMPSON
